## 7.1.2-1: Green & Plastic Free Campus Policy

### **Vision:**

The Oriental Institute of Management (OIM) envisions a sustainable and eco-conscious campus environment that reflects our commitment to environmental responsibility, fostering a culture of sustainability, and contributing positively to the global ecosystem.

### **Policy Statement:**

Oriental Institute of Management is dedicated to creating a plastic-free campus, aligning with our core values of promoting sustainability, reducing environmental impact, and nurturing a conscientious community. This policy underscores our pledge to minimize plastic usage, actively engage students, faculty, and staff, and promote eco-friendly alternatives across our institution.

### **Objectives:**

**Eliminate Single-Use Plastics:** We are committed to phasing out single-use plastics across all areas of our campus, including canteens, hostels, and administrative spaces.

**Awareness and Education:** Our institution will continually educate and raise awareness among students, faculty, staff, and visitors about the harmful effects of plastic on the environment and the benefits of adopting sustainable alternatives.

**Encourage Responsible Practices:** We encourage the adoption of reusable and eco-friendly alternatives such as cloth bags, steel or glass containers, and biodegradable materials for packaging.

**Collaborative Engagement:** OIM will foster a collaborative approach by involving students, faculty, staff, and relevant stakeholders in the development and implementation of plastic-free initiatives.

**DIRECTOR**  
Oriental Institute of Management  
Plot No. 149, Sector - 12,  
Navi Mumbai - 400 763.

**Regular Audits and Reporting:** Regular assessments will be conducted to monitor the progress of our plastic-free initiatives. This data will be reported to ensure transparency and accountability.

**Implementation:**

**Plastic-Free Zones:** Designated areas within the campus are declared as plastic-free zones, strictly prohibiting the use of single-use plastics.

**Canteen and Vending Areas:** Plastic cutlery, straws, and containers have been replaced with sustainable alternatives.

**Hostel Regulations:** Students are required to adhere to a plastic-free policy within the hostels. Non-biodegradable plastic items will not be permitted in hostel premises.

**Educational Campaigns:** Regular workshops, seminars, and awareness campaigns will be organized to educate the campus community about the hazards of plastic pollution and the importance of adopting green practices.

**Alternative Solutions:** OIM will explore partnerships with suppliers and vendors who provide environmentally friendly packaging and products.

**Monitoring and Compliance:**

The Green Campus Committee / administration will be responsible for overseeing the implementation of the plastic-free policy. Regular audits and assessments will be conducted to measure the progress and compliance of the policy. Non-compliance will be addressed through education, counselling, and disciplinary actions if necessary.

**Continual Improvement:**

Oriental Institute of Management is committed to the ongoing enhancement of our plastic-free policy. Feedback from the campus community will be actively sought, and adjustments will be made as needed to ensure the policy's effectiveness and alignment with our sustainability goals.

The "Green Campus - Plastic-Free Campus Policy" underscores OIM's dedication to creating a sustainable environment that nurtures responsible habits

### 7.1.2.3: Energy Conservation Measures

The Oriental Institute of Management is committed to environmental sustainability and energy conservation. With a deep awareness of the need for responsible energy use, the institution has implemented several eco-friendly initiatives across its campus. One noteworthy effort includes the installation of energy-efficient LED lights throughout the premises, resulting in significant energy savings of up to 65%. Additionally, the campus is illuminated by solar lights, harnessing the power of renewable energy sources to reduce its carbon footprint. To further promote energy consciousness, the institute has posted notices across its facilities, urging students, staff, and visitors to switch off lights and appliances when not in use, emphasizing their dedication to both energy efficiency and environmental responsibility. Here are some of the images of such installations:
